ONONDAGA SALT .- The quantity of Onondaga salt made last year at the State Salines (New York) was-3,127,500 bushels. Mr. Spencer the late Superintendent of the Salines, expresses the opinion that he can mrke salt at Saltville (Va.) Springs at a cost not exceeding five cents per bushel, and that he can make coarse salt, similar to Turks' Island, for a cost little exceeding that price.

MESSAGE President of the Ul. States.

DECEMBER, 1845.

Fellow-citizens of the Senute and House of Representatives:

It is to me a source of unaffected satisfaction to meet the Representatives of the States and the people in Congress assembled, as it will be to receive the aid of challenged to furnish a parallel. their combined wisdom in the administration of the public affairs. In performing, for the first time, the duty imposed on me by the constitution, of giving to you information of the state of the Union, and recommending to your consideration such measures as in my judgment are necessary and expedient, I am happy that I can congratulate you on the continued prosperity of our country. Under the blessings of Divine Providence and the benign influence of our free institutions, it

foundation of our government.

It becomes us, in humility, to make our devout acknowledgments to the Supreme Ruler of the Universe, for the inestima-

In calling the attention of Congress to our relations with foreign Powers, I am gratified to be able to state, that, though with some of them there have existed since your last session serious causes of irritation and misunderstanding, yet no actual hostilites have taken place. Adopting the maxim in the conduct of our foreign affairs, to "ask nothing that is not right, and submit to nothing that is wrong," it has been my anxious desire to preserve peace with all nations; but, at the same time, to be prepared to resist aggression, and to maintain our just rights.

In pursuance of the joint resolution of Congress, "for annexing Texas to the U nited States," my predecessor, on the third day of March, 1845, elected to submit the first and second sections of that resolution to the republic of Texas, as an overture, on the part of the United States, for her admission as a State into our Union. This election I approved, and accordingly the charge d'affairs of the United States in Texas, under instructions of the 10th of March, 1845, presented these sections of the resolution for the acceptance of that republic. The executive government, the Congress, and the people of Texas in Convention, have successivetion for the government of the State of Texas, formed by a convention of deputies, is herewith laid before Congress. It is well known, also, that the people of Texas at the polls have accepted the terms ports. He was informed that the gov-

body without unnecessary delay. I can- coasts of Mexico, and to concentrate an eight thousand six hundred and twentynot too earnestly recommend prompt ac- efficient military force on the western seven dollars and eighty-eight cents, tion on this important subject.

As soon as the act to admit Texas as a State shall be passed, the union of the two republics will be consummated by their own voluntary consent.

This accession to our territory has been a bloodless achivement. No arm of force has been raised to produce the result .--The sword has had uo part in the victory. We have not sought to extend our territorial possessions by conquest, or our republican institutions over a reluctant people. It was the deliberate homage of each people to the preat principle of our federative union.

If we consider the extent of territory involved in the annexation-its prospective influence on America—the means by which it has been accomplished, springing purely from the choice of the people themselves to share the blessings of our union,-the history of the world may be
